#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 12,13,17-21 are allowed.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 32 is rejected under 35 U.S.C. 102(e) as being anticipated by West et al. (USPN 6912629B1). As per claim 32, West et al. discloses a network computer having a network connection to couple the network computer to a network, the network computer being programmed to: receive an electronic message sent over the network by the remote computer, wherein the message indicates that the remote computer is prepared to start a data back-up process; send an electronic message to the remote computer to instruct the remote computer to start the data back-up process to store data on the storage device; monitor the data back-up process being performed by the remote computer; and send a message indicating a status of the back-up process; wherein the network computer is programmed to instruct the remote computer to start the back-up process using data stored on the remote computer in column 7, line 27 – column 8, line 30; column 8, line 65 – column 9, line 11.

***Response to Arguments***

4. Applicant's arguments filed 12/05/2005 with respect to claim 32 have been considered but are not persuasive. Applicant states on page 5 that 'the portions of West cited in the Office Action are directed to a restore process 300 rather than a system like claim 32 for monitoring a data back up process...'. Examiner respectfully disagrees. A data backup process is occurring between the host system and the recovery system. Backup data is being sent from the recovery system to the host system in order for the primary volume to have the same data as the secondary volume as a result of missing data within the primary volume. The recovery system is the network computer and the remote computer is the host system. The electronic message sent to instruct the remote computer to start the data backup process is disclosed in column 8, lines 6-10. The monitoring of the data backup process and sending a message indicating a status of the back-up process is disclosed in column 8, lines 56-59.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2113

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
